

# A call to Green Party members: support Ukraine, its workers and social movements

From **Green Party** members in Ukraine Solidarity Campaign

Not long ago a hundred drone and missiles strikes on Ukraine a night was considered bad. Now, after Donald Trump literally rolled out the red carpet for Vladimir Putin, we are regularly seeing 400, 500 or more. Ukraine is under brutal imperialist assault.

Russia's war has meant tens of thousands of civilian deaths (plus tens of thousands of Ukrainian and hundreds of thousands of Russian soldiers); many more injuries; millions of refugees and displaced people; and vast social and ecological destruction. It is more important than ever to stand with the Ukrainians' fight against invasion and occupation, as with the Palestinians and all peoples facing violence and oppression.

## Support motion L2 (Stand with Ukraine)

Late motion L2, submitted by over 70 members, reaffirms, sharpens and concretises the Green Party's support for Ukraine, its workers and its social movements including environmental and climate activists – who are calling for international solidarity. Text at [bit.ly/greenua](https://bit.ly/greenua)

Please help ensure the motion is heard and passed.

Viktoriya Ball, Ukrainian climate activist and Green member (see her video at [bit.ly/vikagpc](https://bit.ly/vikagpc)):

*“Solidarity with Ukraine is not counterposed to anti-militarism, but essential to it. By helping Ukraine protect its citizens and resist Russia's occupation, we can also prevent escalation into a wider war.”*

**Ukraine's workers' and social movements are appealing for solidarity – against the Ukrainian government's neoliberal policies and their struggles against them, but most urgently against the violence and ecocide of Russian imperialism.**

Please help strengthen Green Party policy and campaigning on Ukraine and get involved through your party organisation, your trade union, other organisation or individually.

# Donate to help protect civilians near Ukraine's front lines

Greetings to **Green Party** autumn conference 2025 from Ukraine Solidarity Campaign

Since the full-scale invasion in 2022, Ukraine Solidarity Campaign has raised hundreds of thousands of pounds to support both Ukrainian front-line defenders and essential workers behind the lines (firefighters and rescue workers, health workers, education workers, miners and others) – working with Ukrainian and UK trade unions to do so.

**We're currently raising money for i) a vehicle to be converted for use by a rapid response unit intercepting drones and missiles to protect the population near one of Ukraine's frontlines and ii) another for a rescue squad in Donetsk oblast, also near the front. This at the request of trade unionists and democratic socialists in the industrial city of Kryvyi Rih.**

Donate at [bit.ly/frontlinedefence](https://bit.ly/frontlinedefence) or using QR code. Please also ask your organisation for a donation.

## Support Ukraine Solidarity Campaign

Founded in 2014, Ukraine Solidarity Campaign is the UK trade union and left campaign organising political and practical solidarity with the Ukrainian workers', left, climate and environmental, LGBTQ+, feminist and other social movements. Our national trade union affiliates are UNISON, PCS, ASLEF, UCU, NUM and GMB, alongside many union branches across the country. We are part of the European Network for Solidarity with Ukraine.

Please invite a speaker to your local Green party, union branch, etc, and affiliate (you can also join as an individual). We can arrange speakers in Ukraine on Zoom, Teams, etc. We can also connect you with other Green activists in the campaign.

Feel free to get in touch if you have any questions or ideas!
